Anyway what time should I send my guys to pick it up? based on our agreement which you failed to fulfill, as I never received any single payment, for the following: 8 units Adamson MH 225 w/ midhigh cabinet, 8 units Adamson B218 w midhigh cabinet, 1 unit sub whooper, 3 units amplifier, 2 units SC - mx 700 and cables and Dolly's included for speakers. I want to get these ASAP.

I'm sorry there was nothing discussed on paper not verbal with this sound system. What u wanted was for us to rent this system out when we could but after what happened with Barry I told u on email that u should come pick it up that is no longer our responsibility nor to store it here at our place

We have many witnesses so pls don't pull any stories with us

If u want pls seek legal advise. We have already sought legal advise on our end thank u

Please do not make up stories that we had an agreement and that "on our end we FAILED to fulfill it". We DID NOT have any agreement what so ever. U said u wanted to get the system out of Ed Pangilins house ASAP so we helped u find a way. We asked Tito Larry Baguisa to borrow his truck from Umac and Rocky Rhoel Barry Fanny and I helped to get that system out of that house and temporarily into the studio until we can figure out what to do. You came to the studio and was asking for money up front as a down payment if we were to take it and agree but we said we were not willing to give money upfront cuz we didnt really need the system it would just be good to have around as a business to rent out for outdoor festivities etc. You said ok just use ur connections and promote it and get ppl to rent it out and per rental u wanted to get a cut. Many ppl were around when u were saying this it was discussed in our boardroom so I have many witnesses. When all that drama happened with Barry I texted u I emailed u no response at all whatsoever I told u to pick up the system as soon as possible and u never did.

You even gave us a contract that u made and I didn't agree with it and neither Roc nor I signed it so I said maybe u should just tell her not to bother and to just give it back. Anyways I don't wanna keep going back and forth about this if u wish u can just seek legal advice but pls do not make up stories. This will be the last time we will speak thanks

You should seek legal advise period. Our studio is not a storage facility period. It's not our responsibility to keep ur equipment here for a yr and we never had an agreement not signed anything.

We have kept quiet about everything that has happened with u guys but if we hear anything about u gossipping and Making up stories and twisting stories in the community like what u have just texted me about not fulfilling our end which we all know is not true and are lies then we will have no choice but to speak up also and tell our side of what really happened with this sound system issue and with Barry u fanny and whatever sick things that has transpired and brought us to this point.
